118. Interpellation by Messrs. P. Sitaramiah and P. S. Ramaswamy Iyengar :—

	Interpellations.	*Answers.*
1.	Will the President be pleased to kindly state whether the consent of the Municipal Council has been taken for the removal of the stone slabs from the V.-shaped drains from some of the portions of the Mysore City ? If not, why was not the Council consulted ? If consulted, when ? and for the removal of which portion ?	Estimates were sanctioned by the Works Committee and the Council for kerbing the roads with old stones.
2.	Will not the sanitation of the localities be affected by such removal ?	No. These drains were serving no purpose.
3.	Have not the rate-payers of the concerned localities objected for such removal ? If the rate-payers have protested, were such protests brought to the notice of the Council ? If not, why not ?	There were one or two complaints. Persons that so complained were met at the spot and their wants attended to. They were satisfied that the removal resulted in no damage to their property.
4.	What is the total number of such slabs removed and the total number of running feet of slabs so removed ? and the localities and streets from which the slabs have been removed ?	The accompanying statement gives details.
5.	For what purpose the slabs have been used ?	For kerbstone and tunnels across roads and lanes.
6.	What was the expenditure originally incurred by the Municipality for fixing those V-shaped drains ? (such of those that have been removed.)	Not known.
7.	What is the total savings effected by adopting this procedure to curb the roads instead of purchasing new slabs ?	Rs. 16,066.

Supplemental Questions by Mr. P. Sitaramiah.

	Interpellations.	*Answers.*
8.	Since V-shaped drains were of a permanent nature, was any special proposition brought up before the Council ?	No.
9.	Was the Health Officer consulted before removal of stones from these drains ?	Yes informally.
10.	Before removal has there been any estimate made of the quantity available ?	Yes.
11.	Does not the removal of V-shaped drains cause in some localities stagnation of sullage water and cause insanitation ?	These V-shaped drains serve no useful purpose in carrying away sullage.
12.	Are stones removed only from V-shaped drains carrying storm water.	Yes.
13.	Are there no cases to the contrary ?	Notice is required.
14.	Taking into consideration the cost incurred in constructing these drains originally, is it not more economical to have used new stones.	It is certainly not economical to have used new stones as the old drains were serving no useful purpose and it was a waste leaving the old stones there.
	By Mr. P. S. Ramaswamiengar.	
15.	Were the localities inspected by the officers after removal of the slabs ?	Yes.
16.	Has Ramachandra Agrahar not become insanitary on account of such removal ?	No.
	By Mr. K. Dhanakotichetty.	
17.	Are the roads not damaged on account of removal of the stones ?	Stones are removed only when it is ascertained that no damage is caused to roads.
	By Mr. H. C. Dasappa.	
18.	How many estimates were placed before the Council ?	Information will be furnished.
19.	Does the removal of stones binding concrete drains not cause damage to roads ?	No.
20.	Has the removal not resulted in the loss of some stones ?	Some cases came to notice and were duly dealt on with, the contractor being made responsible for such losses.
	By Mr. V. Virupakshiah.	
21.	Are these stones used for both new and old foot-paths ?	Yes.
	By Mr. P. S. Ramaswamy Iyengar.	
22.	Has entry been made in the measurement books of the quantity removed ?	No. Entry is made in the note books maintained by the Sub-Overseers.
23.	Will the entries in the note books tally with entries in the measurement book ?	Will be looked into.
24.	Have not the executive authorities come to know the article "removal of slabs from the V-shaped drains of Kothwal Ramayya's Street," published in the Newspaper ?	Yes. It is from the people of this spot that I received the complaint and they were satisfied with the explanation given to them.
